

Job description : Development Manager in Dublin

Neoen is one of the world's most dynamic independent producers of renewable energy. With a capacity close to 3 GW in operation or under construction, Neoen is a high-growth company. Neoen is notably active in France, Australia, Mexico, El Salvador, Argentina, Finland, Portugal, Ireland, Zambia and Jamaica. In particular, Neoen operates Europe's most powerful solar PV farm (300 MWp) in Cestas, France, and the world's largest lithium-ion power reserve (100 MW/129 MWh storage capacity) in Hornsdale, Australia.

A player in the fight against global warming and the energy transition, Neoen's mission is to design and implement the means to produce the most competitive renewable electricity, sustainably and on a large scale. As a responsible company whose long-term vision is reflected in a strong and sustainable growth strategy, Neoen is targeting more than 5 GW capacity in operation or under construction by 2021.

In Ireland, Neoen has acquired a portfolio of eight wind farms under operations in counties Donegal, Leitrim, Sligo, Roscommon and Cork for a total capacity of 53,4MW, which offer opportunities for repowering. The PPAs of these wind farms are to expire within the coming years and offer opportunities for renegotiation. Neoen is also at the early stages of development of a series of wind farms. In the solar sector, Neoen develops >200MW of projects together with our Irish partner, BNRG Renewables.

Neoen (ISIN Code: FR0011675362, ticker: NEOEN) is listed in Compartment A of the regulated market of Euronext Paris.

Role Purpose

You will be part of Neoen's Irish development team, based in Dublin. Supervised by Country Director, you will be in charge of the development of a portfolio of wind projects, from identifying the site to securing the land and the permits until construction starts.

The main tasks include:

- Identifying new greenfield opportunities for wind power projects ;
- Development of several wind power projects, securing land lease agreements, consultation with various stakeholders; controlling the development of projects in all aspects:
 - o Monitoring studies;
 - o Coordination of all the parties involved in the projects (consultants, advisors, local authorities, grid companies, suppliers, etc.);
 - o Applying for necessary permits.
- Support the submission of offers in the case of public or private tenders ;
- Support the Construction and Asset management teams during the initial phases of the performance of the services.

Profile

- Master's degree in engineering or business administration, with specialisation in renewable energy, environment or project management;
- 2 to 5 of work experience in similar tasks;
- Strong motivation to work in a complex environment; you are organized, open-minded and able to work independently; you are capable of working on several projects in parallel;
- Solid analytical skills, strong adaptability, efficiency;
- Social skills, excellent oral and written expression;
- Integrity, ethical standards and sound judgement ;
- Leadership and team spirit ;
- Intellectual curiosity, passion and self-motivation ;
- Driving licence (you are expected to travel).

Conditions

- Permanent contract;
- Based in Dublin;
- Starting date: as soon as possible;
- Salary: according to experience.
