

Market Manager (M/F) Operational Control Center

About Neoen

Neoen is one of the world's leading and fastest growing independent producers of exclusively renewable energy. Neoen has over 4.1 GW of solar, wind and storage capacity in operation or under construction in Australia, France, Finland, Mexico, El Salvador, Argentina, Ireland, Jamaica, Mozambique, Portugal, and Zambia. The company is also present in Croatia, Ecuador, Sweden and the USA. Neoen's flagship assets are France's most powerful solar farm (300 MWp) in Cestas, and the world's largest lithium-ion power reserve (150 MW / 193.5 MWh storage capacity) in Hornsdale, Australia.

A player in the fight against global warming and the energy transition, Neoen's mission is to design and implement the means to produce the most competitive renewable electricity, sustainably and on a large scale. As a responsible company whose long-term vision is reflected in a strong and sustainable growth strategy, Neoen is targeting more than 10 GW capacity in operation or under construction by end of 2025.

Neoen (ISIN Code: FR0011675362, ticker: NEOEN) is listed in Compartment A of the regulated market of Euronext Paris. For more information: www.neoen.com

Since 2012, Australia has been a key territory for Neoen. We have developed more than 2,000 MW of wind power, solar and storage projects. In 2014, the government of the ACT (state of Canberra) granted Neoen the major part of the capacity at stake in its tender process: the wind power project of Hornsdale, which increased to a capacity of 309 MW. These were the first steps in the establishment of Neoen in South Australia and was reinforced by the addition of the Hornsdale Power Reserve (100MW) in 2017 and its expansion in 2020 (bringing the capacity to 150MW). We are also present in Western Australia, New South Wales, Victoria and Queensland:

- WA: supply of off-grid electricity to a mine with a hybrid (solar/battery) plant
- NSW: 5 solar farms
- VIC: 1 solar farm, 1 windfarm being currently commissioned and 1 battery (that will be one of the world's largest batteries with an installed capacity of 300MW/194MW) starting construction end-2020
- QLD: 1 solar farm (460MWp Western Downs SF) and 1 wind farm (200MW Kaban Wind Farm) both under construction.

We have offices in Sydney and Canberra, which is the head office for our wind power activity in the Asia-Pacific region. The Canberra office hosts our Asset Management, Finance and 24/7 Operations Control Centre (OCC) teams.

Role purpose

Our **Australian Operations Department** is looking for a **Market Manager**, reporting operationally to our OCC Manager (and "functionally" to our Head of Asset Management and to our Energy Management Director).

You will work as part of a highly motivated 24/7 team responsible for the safe and efficient monitoring and control of our renewable energy assets. You will be a dedicated team leader with high standards and attention to detail, motivated to assist the Market Managers, Asset Managers and Compliance Manager to deliver guidance and leadership to the OCC controllers regarding the market strategy and operation.

You will have the following responsibilities :

MARKET & REVENUE MANAGEMENT STREAM:

- Monitoring new and developing events in the Australian National Electricity Market
- Providing market bidding guidance (provide bid strategies given prevailing and expected market outcomes) to the on shift Controller or OCC Team Lead to maximise assets profits. This will include being available outside of business hours, from time to time, during critical market events, via an on-call system to be defined
- Working with the Market Management team to define and document guidelines and procedures for the bidding in the energy market and monitoring solutions to optimise dispatch outcomes
- Working with the Market Management and the OCC Team Lead to manage Neoen's and business partner Tesla's autobidding systems. For the Tesla auto-bidding system, the MM will act as the "super-user" for the OCC and be the main point of contact with Tesla for its management
- Working with the Asset Management and Market Management teams for the management of the FCAS costs mitigation projects, in particular "self-forecasting" for Causer Pays Factor reduction
- Maintaining operational relationships with the relevant bodies at AEMO, the TNSPs, Governments, off takers and PPA representatives, as required
- Maintaining operational relationships with our key business partners, in particular Tesla, and contractors (self-forecast providers, IT providers, Market consultants), as required
- Analysing market data and providing first line reports to the Market Management and Asset Management teams both within Australia and globally
- Refining and providing market training to the teams (OCC and others as required)
- Contributing to continuous improvement of market management function (monitoring tools, strategies, procedures) to deliver increased revenue performance based on Key Performance Indicators

COMPLIANCE MANAGEMENT STREAM:

- Providing guidance to the Controller on shift to ensure compliance of all assets with regards to National Electricity Rules and off-take contracts, including their related Operating Protocols
- Working with the Asset Managers and the Compliance Manager to regularly assess and audit the compliance of the Assets with the National Electricity Rules and off-take contracts

Candidate profile

The candidate will need the following skills and experience to succeed in this role:

- Graduate or post graduate degree in business or engineering, with at least 5 years of experience in the electricity wholesale markets
- You are reliable, organised, team focused, rigorous and analytical, with a capacity to work under intense and constant operational pressure
- Experience with Excel is required and you are comfortable analysing data and communicating your results
- Experience in a trading desk or a control centre and experience with data analytics will be highly regarded
- You are experienced and/or comfortable with working in a system of flexible "on-call" system

- Your English is fluent (written and spoken)

Conditions

Permanent contract

Based in Canberra

Starting date: as soon as possible

Please send your application to Laurent Francisci, COO Australia at laurent.francisci@neoen.com
